

2026 HEB YOUTH IN GOVERNMENT GRADUATES

Congratulations to the 2026 HEB Youth in Government graduating class and scholarship winners!

The 19 students who participated in the program this year gained a better understanding of the impact local government has on the community while building relationships with each other, city staff, and city officials. It was a great program this year, and we are grateful for the partnership between the cities of Hurst, Euless, and Bedford and the HEB Chamber of Commerce to offer this opportunity to local high school juniors and seniors. We also appreciate Republic Services for graciously providing the college scholarships each year!

Information on the 2027 HEB Youth in Government program will be available later this year on the HEB Chamber's website, heb.org.

WATER CONSERVATION

As summer approaches and temperatures increase, it's important that we continue to do our part to help conserve water. Now is a great time to brush up on the guidelines when it comes to irrigation or sprinkler systems:

- There is no watering with irrigation systems or sprinkler systems between 10 a.m. - 6 p.m.
- Although there are two allowable days, you don't have to water if your landscape does not need it.
- Watering by hand-held hose, drip irrigation or soaker hose is allowed at any time.
- No more than two hours per day maximum is encouraged.

Some great water conservation advice can be found at waterisawesome.com. We also have resources and details about your watering schedule available at hursttx.gov/waterconservation.
